Objective

I am a collaborative MERN stack developer with a proven track record in leveraging cutting-edge technologies. I am eager to bring my technical expertise and creative flair to drive innovative solutions and contribute to a dynamic team.

Professional Summary

- Accumulating 7 years of hands-on experience in both Frontend and Backend development.
- Skilled in **JavaScript, Node JS, React JS, TypeScript**, Next JS, Express JS and React-Native.
- Extensive knowledge of Context API, Redux, Redux-thunk, Redux-saga, REST API.
- Well-versed in Docker, Containerization, GraphQL, Open API, AWS Services with practical application experience.

Technical Skills

Frontend	JavaScript, TypeScript, ES6, React JS, Next JS, Redux.
Backend	Node JS, Express JS
Database	MongoDB, MySQL, PostgreSQL, Redis
Cloud	AWS, SAP IRPA
IDE & Tools	Visual Studio Code, GitHub, Postman, Docker

Achievements

Completed IBM Agile Explorer training and certificate.

Qualified **Gate 2014** Competitive Exam with 97.60 percentile.

Cleared Hacker Rank JavaScript assessment with certification.

Received **Outstanding Performer of The Quarter 2021** award in ITC Infotech.

Professional Work Experience

Globant India Pvt. Ltd.

Project : Virtual Internal Auditor

(June 2022 – Present)

Client : Ernst & Young

Summary : EY VIA is a digital platform launched by EY to support businesses in enhancing their internal audit function.

Role : Full Stack Developer

Skill Used : ReactJS, NodeJS, Redux, Redux-thunk, PostgreSQL, Docker

Responsibility :

- Worked on different custom components for EYVIA application.
- Worked on different custom hooks for different functionality.
- Worked on Optimization of the search, loading, filtering functionality.
- Worked on data authentication for different restful API's.
- Performed debugging and fixed critical bugs.

IITC Infotech India Ltd.

Project : SAP IRPA SDK (May 2020 – June 2022)
Client : SAP Labs
Summary : SAP IRPA is a unified cloud solution. It uses intelligent bots to automate manually repetitive task. These bots execute JavaScript code, written for different purpose to automate the task.
Role : Node JS Developer
Skill Used : JavaScript, Node JS, IRPA, AWS S3, Textract ,SNS
Responsibility :

- Worked on sapui5 sdk and implemented new activities that perform automation of business process (like form filling and submit form, select dom element, button or anchor link click for Success Factor, Ariba).
- Worked on aws sdk and implemented different activities to utilize AWS services (S3, Textract, SNS) and automate required task (like create & delete s3 bucket, upload objects to s3 bucket, activities related with s3 bucket properties, activities to analyze and extract data from pdf files using aws textract service).
- Performed unit testing and write test cases for different activities using mocha, chai and supertest.

Sonata Software Pvt. Ltd.

Project : ABFRL DTS App (Feb 2020 – May 2020)
Client : Aditya Birla Fashion and Retail Limited
Summary : It is an iPad tablet app for ABFRL customers developer using react native technology.
Role : React Native Developer
Skill Used : React-Native, Redux, Redux-thunk, AWS AppSync, GraphQL
Responsibility :

- Worked on offline media functionality (To download product catalog in background for offline mode).
- Implemented business logic to monitor internet connectivity status and perform app sync.
- Worked on the product review screen, add to cart screen and implemented business logic.
- Done bug fixing, debugging and improved app performance.

Hotwax Systems Pvt. Ltd.

Project : Clienteling App (July 2019 – Jan 2020)
Client : Hotwax Systems
Summary : It is an e-commerce b2b, mobile app that empowers sales associates by giving them full view of their customers at their fingertips to enhance customer engagement and in-store personalization.
Role : React Native Developer
Skill Used : React-Native, Redux, Redux-thunk, Hotwax commerce.
Responsibility :

- Worked on different screens of the Clienteling app by following figma design.
- Worked on UI of sign-in, sign-up, product list, product details, product reviews, product search, add to cart screens, checkout, add address, add payment method screens.
- Worked on redux, redux-thunk for state management of the app.
- Worked on different reusable components (like custom button, textInput, loader).
- Worked on app performance improvement.

Project : VDI Outage Tracker (May 2018 – June 2019)
Client : Internal Project
Summary : It is a web application, main function of this application is to raise the ticket related with VDI issues and track status. Also monitor the outage time or wasted hours when an employee faces any issue related with remote system and not able to work.
Role : MERN Stack Developer
Skill Used : Node JS, React JS, Express.js, MongoDB, REST API's, Redux, Redux-thunk
Responsibility :

- Designed, built and maintained efficient, reusable and reliable code.
- Worked on different REST endpoints using express and node (like employee sign-in, sign-up, create ticket, get all tickets, generate excel reports).
- Worked on different feature like authentication, authorization, caching, user input validation, security.
- Worked on different reusable UI components using react and used redux for state management.
- Integrated the react app with node backend app.
- Performed unit testing, stub testing, using jest, mocha, chai, chai-http.

Project : Multi Channel Development Centre (Jan 2017 – May 2018)
Client : Nationwide Building Society
Summary : It is an online banking project of Nationwide Building Society (UK) developed using different technology stack including reactjs as frontend technology.
Role : React JS Developer
Skill Used : React JS, Redux, Redux-thunk, JavaScript, HTML5, CSS3, REST
Responsibility :

- Worked with UX/UI design team to improve UI of existing application.
- Worked on the customer offer component to display offer services for customer.
- Worked on the customer profile component and added new fields and validate input data.
- Worked on redux, redux-thunk for state management of the app.
- Worked on critical bug fixing tasks.

Education
